

Rossignol Revamps S-Series for 2013/14

Editor's Note: The S7 brought home Editors' Choice for Rossignol in the 2010 Gear Test, and the S3 received honors in 2011. Ever since, they've remained perennial favorites among our testers. So when we caught wind that Rossignol is overhauling their award-winning line for next winter, we thought it was a big deal. Here's what they've told us....

Editor's Note: The S7 brought home Editors' Choice for Rossignol in the 2010 Gear Test, and the S3 received honors in 2011. Ever since, they've remained perennial favorites among our testers. So when we caught wind that Rossignol is overhauling their award-winning line for next winter, we thought it was a big deal. Here's what they've told us....

Power Turn Rocker
Light Core
Free V.A.S.
Air Tip

For the 2013/14 ski season, Rossignol will introduce the next progression of the award-winning S-Series and the Future of Freeride: the all-new 7 SERIES.

Featuring the all-new Soul 7 (136/106/126), the 7 Series is a revolutionary fusion of backcountry, freestyle and freeride performance.

Check out and "Like" the new Soul 7 Facebook page where you can find: videos, photos, testimonial and more. Then be sure to share and help spread the word: The Future of Freeride is Here.

Soul 7: (136/106/126); radius: 17m (180cm); sizes: 162, 174, 180, 188cm

Featuring new, athlete-driven innovation and design, the Soul 7 encourages all skier types to push the boundaries and leave their mark.

Powder Turn Rocker has been redesigned for even more effortless floatation, fatigue-free steering and all-mountain

versatility. Patented new Air Tip technology reduces swing weight for an incredibly lightweight feel. A new ultra-lightweight core reduces ski weight by 20% for enhanced agility and easier touring.
